

## Solis Bean-to-Cup Auto Espresso with Milk

### DESCRIPTION

Solis of Switzerland has developed the slimmest bean-to-cup espresso machine on the market: only 18cm wide! Stylish, compact, convenient, quiet and eco-friendly, the machine will easily find its place in your home.

With its 19 bar pump pressure, brewing system with patented pre-brewing technology, 5 grind settings, height adjustable nozzle, and ability to memorise your settings, the range guarantees the perfect extraction of coffee aromas for a tailored cup of coffee. All with an average price per cup of 3—4 times less than coffee pods!
