

Solis Medium Vacuum Roll Set

DESCRIPTION

Solis Vacuum Rolls - 20 x 600 cm (2 pcs)

These vacuum rolls come in a width of 20 cm, making them suitable for use with Solis vacuum sealers. All you need to do is to cut the foil to the desired length, seal one end to make a bag of it, fill the bag with the desired food and vacuum-seal it.

Channels on both sides of the foil allow air to be extracted completely. The three-layered film with a thickness of 110 μ m reliably prevents moisture and oxygen from entering and makes the bags suitable for sous-vide cooking (< 100 $^{\circ}$ C), for microwaves (< 100 $^{\circ}$ C), for boiling water (< 4 hours) and for storage in the freezer without the risk of freezer burn (> -20 $^{\circ}$ C).

All Solis vacuum-seal rolls and bags are made of food-safe, BPA-free material for guaranteed safety and quality. Tested and approved in Switzerland by SQTS, only genuine with the Solis logo on the foil.
