Solis Slice & More Kitchen Multi Processor

DESCRIPTION

The Solis Slice & More is the perfect solution for many cutting and slicing chores in your kitchen. This compact multi-purpose grater allows you to conveniently slice, shred, grate and grind soft food such as many types of fruit and even hard food like nuts and chocolate.

The Solis Slice & More is not only multifunctional, it is also a joy to use. Choose a cutting drum and push it into the holder of the appliance. Place a bowl under the opening of the cutting drum to collect the processed food. The appliance requires only little attention. By a single push of the power switch, you switch the grater on and select the desired speed setting at the same time. Fill the funnel with the food you wish to slice or grate and use the tamper to safely push the food down the funnel. Switch the appliance off to remove and clean all parts and you're already done.

Powered by a 350-watt motor, this grater cuts raw and hard or cooked and soft ingredients into small or coarse pieces in no time. Simply select the high speed setting for hard and raw food to increase the grating power. Many types of vegetables and fruit are suitable for use with the thin and thick slicing drums. The grating drum is ideal for hard cheese, nuts, chocolate, breadcrumbs and similar food. The coarse shredding drum is ideal for apples, carrots, celery and cheese. Use the grinding drum if you are looking to finely process apples, carrots, radish, chocolate and boiled potatoes or garlic.

The plastic parts of the grater are free of BPA. Its high-quality case made of brushed stainless steel is designed for maximum ease of use while at the same time being a joy to look at. All materials are easy to clean for ultimate convenience.

A clever storage compartment wraps up and hides unused cable from your view, making your kitchen look tidy and neat at all times.

Slicing, grating and grinding in style has never been this easy!
