

## Solis Value Pack Rolls & Bags

### DESCRIPTION

#### Solis Vacuum Bags & Rolls - Value Pack

This value pack comes with 50 medium vacuum bags (20 x 30 cm), 2 small vacuum rolls (15 x 600 cm), 2 medium vacuum rolls (20 x 600 cm) and 1 large vacuum roll (30 x 600 cm). The different vacuum rolls and bags offer just the right size from small to large quantities of food.

Channels on both sides of the foil allow air to be extracted completely. The three-layered film with a thickness of 110  $\mu$ m reliably prevents moisture and oxygen from entering and makes the bags suitable for sous-vide cooking (< 100  $^{\circ}$ C), for microwaves (< 100  $^{\circ}$ C), for boiling water (< 4 hours) and for storage in the freezer without the risk of freezer burn (> -20  $^{\circ}$ C).

All Solis vacuum-seal rolls and bags are made of food-safe, BPA-free material for guaranteed safety and quality. Tested and approved in Switzerland by SQTS, only genuine with the Solis logo on the foil.
